

## **Software Engineer**

Matrix Pointe Software is a rapidly-growing Cleveland-based company that focuses on legal case management software targeted at courts, prosecutors, and law enforcement agencies. We are focused on developing solutions that deliver tremendous value to our clients by leveraging the latest in web technology. Our software engineers enjoy a casual and collaborative work environment with flexible work hours, competitive salaries, health benefits, 401K and paid time off.

### **About the Company:**

As a small rapidly-growing business, we:

- Encourage contribution to all aspects of the software from OO design, to UI design, to business analysis
- Encourage creative freedom
- Use cutting edge .NET and Open Source technologies to deliver the best applications for our clients
- Develop products that have a positive impact on our clients and our community

### **About the position:**

In this position you will:

- Be responsible for designing and writing high-quality code, as well as all aspects of the software development process
- Collaborate with other software engineers
- Have an opportunity to make a difference both to the applications and the way they are built
- Work with C#, ASP.NET MVC, jQuery, NHibernate, SQL Server, NUnit, and Ruby

### **About you:**

An ideal candidate:

- Is highly motivated, thriving on fast-paced, self-organizing projects
- Is skilled in Domain Driven and Object-Oriented Design
- Is familiar with modern design principles, patterns, and practices
- Has broad experience with web and/or rich client development in Enterprise Systems
- Is experienced with T-SQL and Relational Database concepts
- Has at least 2 years prior work experience as a Software Engineer
- Possesses a BS in Computer Science, Computer Engineering, or related disciplines with a minimum GPA of 3.2
